

Product Description

G9 COB LED BULB

G9 COB LED bulb is a compact and high-efficiency lighting solution for traditional halogen lamp. G9 led cob light bulb is made of quartz glass, COB and G9 lamp cap, which is superior upgrade over halogen and early SMD LED versions, offering better efficiency, longer lifespan, and superior light quality. G9 cob led lamp's compact design makes it ideal for home and commercial lighting.

Advantage

- No multiple shadow

G9 led cob light bulb emits perfectly uniform light, thanks to their integrated chip-on-board design and optical glass diffusion that eliminates shadows and glare.

- Long operating life

G9 led cob light bulb last up to 15,000 hours, whereas traditional incandescent bulbs typically have less than 90% of that lifespan.

- Easy installation

G9 cob type led can be installed instantly—just insert into narrow fixtures.

-Green lighting

G9 cob led lamp is eco-friendly—free from mercury and harmful rays, ensuring safer and cleaner lighting.

Quartz glass cover

G9 COB LED BULB

Feature

- ✓ Quartz glass cover outside
- ✓ No UV and IR bulb
- ✓ Tool free installation
- ✓ COB light source
- ✓ 15000 hours life span
- ✓ Non dimmable

Application

The application fields of G9 COB type led are as follows:

- Home lighting
 - Crystal chandeliers and pendant lights: Prevent cracking in enclosed fixtures due to quartz glass withstands high heat, and COB LED emits uniform light without dark spots, enhancing aesthetics.
 - Kitchen under-cabinet task lighting: Provide a bright lighting due to integrated COB design, and quartz glass resists grease and moisture, making it easy to clean.
 - Vanity light: Provide a complete moisture-proof protection based on quartz glass, ensuring safe operation in high-humidity bathroom environments.
- Commercial display lighting
 - Jewelry and retail store: Used for jewelry case lighting and boutique clothing displays lighting, ensuring true color representation and preventing color fading in fabrics and artworks.
 - Restaurant Ambient Lighting: used in pendant lights above dining tables, providing soft, focused illumination
