

Product Description

Halogen Ceiling Spot Light

With its surface mounted design, the Todaybulb's Halogen ceiling spot light finished in a refined matte black blends easily into modern interiors. Designed to house an AR111 halogen lamp, this surface-mounted black box ceiling light delivers precise and glare-free illumination. They are ideal for highlighting specific areas in spaces with higher ceilings or wide wall surfaces—without the visual clutter of recessed or hanging fixtures. A built-in electronic transformer powers the matt black ceiling spotlights from a standard input voltage 220–240V, and includes a fitted cable and plug. This ensures these modern spotlight ceiling lights are ready to install without any additional parts or wiring.

Advantage

- Precise Beam Control

Compatible with AR111 halogen lamp, and beam angle ranges from 4° to 45° ideal for precise lighting.

- Soft and non glare light

Emits strong, glare-free illumination ideal for accent or ambient use.

-Ready for Mains Power

Operates on 220-240V. Built-in transformer steps voltage from 220-240V down to 12V to the lamp for ensuring the safety for this non enclosed lighting fixture.

- Fully Adjustable

Rotate and tilt the spotlight head with ease for flexible coverage.

- Durable Cabling

Todaybulb's modern spotlight ceiling lights Comes with a high-quality power cord and plug for immediate installation.

- Quick Setup

Designed for a straightforward and hassle-free installation process.

Halogen Ceiling Spot Light

Connect the power supply using a socket

Input voltage: 220-240V
