

Product Description

R7s heat lamp

The Todaybulb's R7s heat lamp delivers targeted infrared heat with unmatched consistency. Designed specifically for commercial food warming application and IR therapy lamp. Unlike standard heat lamps, our double-jacketed quartz construction ensures even thermal distribution while protecting against thermal shock in high-demand environments.

Advantage

- Optimal 118mm Length

The Todaybulb's catering heat lamp 300w 118mm long type is engineered for seamless compatibility with commercial food warmers, bain-maries, and buffet stations.

- Instant Infrared Heat

No warm-up delay. The catering heat lights provide immediate and consistent warmth to keep dishes at perfect serving temperature.

- Advanced Double Jacket Design

The catering halogen heat lamps feature a quartz tube prevents splatter damage while maximizing heat retention, protects the internal tube from external contact, splashes, and debris, and reduce the risk of hot spots, damage, or early failure.

- True-Color Illumination (CRI 100)

Enhances food presentation with natural-looking vibrancy, making dishes appear fresh and appetizing.

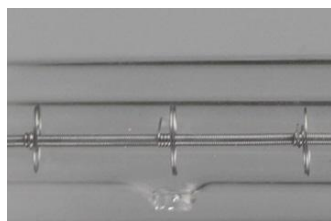

- Adjustable Intensity

The dimmable function of Todaybulb's catering heat lights allow precise control over heat output for different food types.

- R7s Push-Fit Base

Tool-free installation for quick catering halogen heat lamps changes during busy service hours.

R7s heat lamp

High temperature-resistant infrared tungsten filament

High temperature resistant twin quartz glass tube

Mix halogen gas for protection

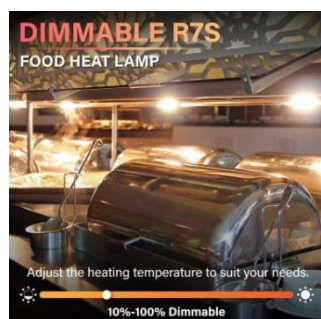

Imported ceramic white plating material

Feature

- ✓ Dimmable
- ✓ 100% CRI
- ✓ High temperature 800° C resistance
- ✓ Warm white
- ✓ Instant Infrared Heat
- ✓ 2000 hours life span

Application

Catering, therapy lamp, drying processes, thermoforming, shrink packaging, vulcanizing and curing rubber, laminating, sealing, and electrostatic copy equipment.

Specification

Model	Power	Voltage	Size	Base	CRI	Life time	Used for
IR-JACKETS	200W	110-130V/ 220-240V	19*118mm	R7s	100	2000hrs	Heating
IR-JACKETS	300W	110-130V/ 220-240V	19*118mm	R7s	100	2000hrs	Heating
IR-JACKETS	500W	110-130V/ 220-240V	19*118mm	R7s	100	2000hrs	Heating
IR-JACKETS	300W	110-130V/ 220-240V	19*220mm	R7s	100	2000hrs	Heating
IR-JACKETS	500W	110-130V/ 220-240V	19*220mm	R7s	100	2000hrs	Heating
